Styling

My styling experience began with my job as styling assistant for the creative agency, Lit AF Creative. We worked together on editorial and advertisement photo shoots in Kelowna and Vancouver. Since then my passion for styling and creative direction has lead me to produce, style, and direct my own editorial and advertisement shoots primarily for my consignment store, Most Wanted Luxury Resale, in collaboration with other BC based creatives.

Production

With the team at Farago Projects in London, England, I assisted in the production of a multitude of editorial and advertisement photo shoots. This included pre & post production work such as location scouting, budgeting, kit preparation, scheduling, and accounting work. On set I was responsible for creating an exceptionally smooth, positive, and efficient atmosphere for all. Here you will see a select few of the shoots I was most heavily involved in.
